## Build-in devices EVESYS

Rated current  
**16, 25 A**

Utilization category  
**AC-22A, AC-11**

## Application

## 1. Application of EVESYS in house installations:

- switching on and off of smaller loads (lighting, sockets, bells, etc.): switches
- switching on and off of larger loads, through contactors, relays, impulse relays: switches, push-buttons
- use in control systems (manual, switch-off, automatic): center-off changeover switch
- display of state in installations (operation of ovens, presence of voltage, melting of fuse): signal light, switch with control light, push-button with control light
- switching of measurement circuits (for example measurement of voltage, frequency, etc.): changeover switch

## 2. In industry (especially in control desks):

- manual control and signalization of processes
- switching on/off of auxiliary and measurement circuits (lighting, sockets, etc.)
